

Dear

I am writing to ask for your assistance in upgrading our local neighbourhood park so that members of our community and their much-loved animals may gain access to more pet-friendly spaces.

Our local park has been a vital landmark to our community, however, with more residents owning dogs, our park requires a few features to ensure it suits both people and pets at

Below are a few key features we could look to incorporate, to make the most of our space:

- Clear signage about rules and expectations for the use of the park
- Double gate system to keep pets safe as they go in and out of the park off-leash
- Hydration station(s) for dogs
- Waste station so owners can pick up after dogs
- Shade for both dogs and owners
- Benches or seating for owners
- Fencing around the park

I feel that the enhancement of our local park will not only strengthen and contribute to social capital, but also provide opportunities for community members to interact and socialise. The additional facilities will also allow dogs and their owners to run and play, improve cardiovascular health, reduce boredom and stimulate minds.

Our park brings our community together and enhances the quality of life for all. The implementation of additional resources will allow responsible practices for pet owners, thus improving daily life for pets and their owners.

Thank you for taking the above into consideration and I look forward to receiving your response.

Should you have any questions or would like to discuss the matter further, please do not hesitate to contact me directly.

Kind Regards,
